Travel made easy. One click, endless adventures!

Problem Statement

ViuTravel had a vision to make travel effortless. But without a website, an app, or a clear identity, that dream had no runway. In a crowded industry, they needed more than just a booking platform; they needed a brand that would stand out, a seamless experience that travelers would trust, and a strategy that would make them unforgettable.

The solution offered

BBR built it all from the ground up. A sleek, intuitive website. A fast, responsive app. A booking system so effortless that planning a dream getaway felt like a vacation in itself. But we didn't stop there. We gave ViuTravel a bold new identity, vibrant visuals, a sharp positioning strategy, and even an office space that felt like the beginning of an adventure. Every touchpoint, from their digital presence to their real-world branding, was designed to inspire movement.

The impact

Then, the magic happened. Travelers showed up. Website traffic soared. Bookings surged. Engagement skyrocketed. Within months, ViuTravel wasn't just another travel company, it was a brand that people trusted, returned to, and raved about. What started as an idea became a movement, and with every seamless journey, ViuTravel cemented its place as a leader in modern, personalized travel. BBR didn't just launch a brand, we brought ViuTravel to life one booking at a time.
